

# CLASSIX® SE

CLASSIX® SE from Globe is ideal for departments looking for a generous, non-restrictive fit at a value price. The jacket features a tapered body that is roomier through the shoulder and upper body with less bulk at the hem. It has a shorter one-piece collar offering a better interface with the helmet. The low-rise pants offer a “street fit.”

## JACKET STANDARD FEATURES

**DROP-SHOULDER DESIGN** moves seam beyond the shoulder for improved reach and reduced coat ride up.

**DOUBLE SLEEVE WELLS** with NOMEX® wristers to keep water out and interface with all glove styles.

**FREE HANGING THROAT TAB** stays out of your way when not deployed.

**YOCCO™ DRAG RESCUE DEVICE** is easy to deploy when you need it, out of the way when you don't.

**DUAL ACTION CARGO POCKETS** with KEVLAR® fabric reinforcement inside.

**FRONT CLOSURE** is hook and dee out, snap in.

## PANTS STANDARD FEATURES

**VERTICAL FLY** with hook and dee positive closure and take-up straps or optional belt.

**INDEPENDENT WAISTBAND** for unrestricted fit and no-gap protection with liner.

**DIAMOND CROTCH GUSSET** distributes stress in both shell and liner for durability.

**PADDED H-BACK RIPCORD SUSPENDERS** attach to horizontal loops so there is no hardware to dig in or pull out.

**THERMALLY ENHANCED FLEX LINER KNEES** add mobility and a layer of thermal and moisture barrier to protect this high-compression area.

**REVERSE BOOT CUT** is shorter in the back to avoid premature cuff wear.

## OTHER JACKET AND PANTS STANDARD FEATURES

**LINER ACCESS OPENINGS** for easy access between the layers.

**CUFF REINFORCEMENTS** are grey suede.

**TRIMTRAX® THREAD PROTECTION** with patented cording lasts far longer on sewn on trim than conventional stitching.

**DOUBLE-STITCHED SEAMS** with 8–10 stitches per inch for longer service life.

Available in a limited range of popular materials and options.

 Certified to NFPA 1971 (Structural Fire Fighting).
